Ask TV Scout

What year were the Emmy Awards begun? Have the categories changed much? — S.B., Fern Park, Fla.

When the Emmys are telecast in May this year it will be the 28th presentation of the TV awards. Yes, the categories have changed tremendously and grown. If you want further information, write the National Academy of Television Arts and Sciences, 291 So. La Cienega Blvd., Beverly Hills, Calif. 90211.

Please clear up a misunderstanding that my husband and I are having about Raquel Welch. He says she is in her early 20s. I say she is at least 40. Which one of us is right? — Rachel Green, Clermont, Okla.

You are closer and you may even be right. Raquel's age is listed at 34. However, actresses generally remove a few years because we live in such a youth-oriented society. So she could be closer to 40 than she lets on.

Is it true that Sonny and Cher's daughter was killed? We have heard rumors. — Paula Bardenon, Marksville, La.

No, Chastity is alive and well. That's just another of those infuriating rumors which crop up about stars and their offspring.
