Technics technology has combined the convenience of cassette with the kind of full-fidelity sound you'd expect from a big real-tube job. Each new Technics Cassette Deck brings a new level of performance and features to its respective price range, but possibly the most spectacular accomplishment is their least costly model, Technics RS-263US. This is the only cassette deck chivalry, which gets rid of annoying "tape hiss" without filtering away those high-pitch overtones that add brilliance to your music... a vital feature.
