### Tiwa Indians Are Designated

WASHINGTON (AP) — The House Interior Committee approved Wednesday a bill by Rep. Richard White, D-Tex., to designate

ate a group of Indians in El Paso County, Tex., as the Tiwa tribe. White said the designation would make the tribe eligible for benefits under Texas relief programs.

### EARL WILSON

NEW YORK — When Al Martino, the bricklayer turned singer, invited me to dinner, I didn't know he was going to cook it himself.

"It's better than Caesar Salad," I concluded. "Thanks," he said. "To me, Caesar Salad has too much bread, too much anchovies, and too much garlic. There's no garlic in this." "No garlic?" I asked. "Is that possible?"

### New Zilker Production Scenery Made for Unity

To increase the feeling of unity between the play and the set design, scenery for "Once Upon A Mattress" is more present a problem. The stage can easily be divided by a low, narrow curtain, allowing the change of color and fabric," Traylor says.

is simple. "I have done most of my practice cooking in hotel rooms where I wasn't supposed to do any cooking," Al said. "Every time I let myself go with garlic, the hotel manager found me out, and threw me out."

**AFTER HOURS UNDERGROUND FILMS TONIGHT**

Another problem was giving the scenery a static element to serve as a background. "Scenery, so often, tends to be designed with only the production in hand in mind, leaving the producers with only white elephants to expensive to discard," says Traylor.

Francine Sagan said at Trade Heller's she's writing a murder mystery about it. "There are five dead so far. I have one more corpse to go," Traylor said.

Friday, August 18, 1967

Because the cast is large and the scenes numerous, it was difficult to choose colors that would delineate character relationships and still create a tasteful and pleasant composition on stage.

Traylor succeeded in his design, despite the problems and difficulties. His skill will be revealed to serve as a background for the action broadside and salacious which accompany interruptions or pauses.

Traylor emphasized costume lighting, believing that scenery is a static element to serve as a background for the action broadside and salacious which accompany interruptions or pauses.

Leland Bernstein was born in Lawrence, Mass., Aug. 25, 1918. He is registered with the New York State of Board of Accountancy, the American Exchange, the National Association of Securities Dealers, the Chicago Board of Trade, the Texas Securities Board and a number of regional exchanges.

Barclay is the son of Dr. and Mrs. John Barclay of Austin. He attended Austin High School and graduated from Texas Christian University. In addition to special studies with the New York Institute of Finance, Barclay has completed work with the Goodbody Brokerage School at the New York University Graduate School of Business.

Barclay resides with his wife, the former Carol Lee Jones of Marlin, at 2006 Greener St.

**Nest Interrupts**  
**STAFFORD**, Kan. (AP) — Chet's Shanty of Stafford was at a loss to understand why his combine overturned whenever he took it out to cut his wheat crop. He decided to dismantle the radiator on the vehicle to work the cause of the trouble. He found a bird's nest full of hard-boiled eggs which had stopped the water from circulating through the radiator.
